EXECUTIVE SUMMARY

Introduction.....	ES-1
Why Is This Plan Being Prepared?	ES-2
What Is New in This Plan Revision?	ES-2
How Was This Plan Revision Prepared?	ES-3
Is Air Quality Improving?.....	ES-4
What Are the Applicable Key Federal and State Requirements That This Plan Revision Addresses?	ES-6
How Has the Emissions Inventory Changed?.....	ES-6
Has the Overall Control Strategy Changed Significantly?	ES-7
What Other Requirements Are Addressed in This Plan?	ES-7
What Considerations Have Been Made for the New Federal Standards for Particulate Matter and Ozone?	ES-7
What are the Challenges of Attainment?	ES-8
Has the Attainment Projection Changed for Federal or State Standards?	ES-8

1. INTRODUCTION

Purpose.....	1-1
Constraints in Achieving Standards.....	1-2
Setting	1-2
Emission Sources	1-4
Population	1-4
Control Efforts	1-5
History.....	1-5
Impact of Control	1-6
Progress in Implementing the 1997/1999 SIPs.....	1-7
Draft 2003 AQMP Revision	1-13
Federal Clean Air Act Planning Requirements	1-13
General Requirements.....	1-13
CAA Planning Requirements Addressed by the draft 2003 AQMP	1-16
State Law Requirements	1-19
Plan Effectiveness.....	1-21
Emission Reductions	1-22
Population Exposure.....	1-23
Control Measure Ranking.....	1-23
Format of This Document.....	1-24

2. AIR QUALITY AND HEALTH EFFECTS

Introduction.....	2-1
Ambient Air Quality Standards	2-1
Comparison to Other U.S. Areas	2-1
Current Air Quality Summary	2-5
Ozone (O_3) Specific Information.....	2-8
Health Effects	2-8
Air Quality.....	2-8
Carbon Monoxide (CO) Specific Information.....	2-12
Health Effects	2-12
Air Quality.....	2-12
Particulate Matter (PM_{10} and $PM_{2.5}$) Specific Information	2-14
Health Effects	2-14
Air Quality, PM_{10}	2-14
Air Quality, $PM_{2.5}$	2-15
Nitrogen Dioxide (NO_2) Specific Information	2-18
Health Effects	2-18
Air Quality.....	2-18
Sulfur Dioxide (SO_2) Specific Information	2-19
Health Effects	2-19
Air Quality.....	2-19
Sulfates (SO_4^{2-}) Specific Information.....	2-20
Health Effects	2-20
Air Quality.....	2-21
Lead (Pb) Specific Information	2-21
Health Effects	2-21
Air Quality.....	2-22
Summary	2-22

3. BASE YEAR AND FUTURE EMISSIONS

Introduction.....	3-1
Emissions Inventories	3-2
Stationary Sources	3-2
Mobile Sources	3-2
Gridded Emissions	3-3
Base Year Emissions.....	3-5
Reconstructed 1990 Emission Inventories.....	3-5
1997 Emission Inventory	3-5
Future Emissions.....	3-9
Data Development	3-9
Summary of Baseline Emissions	3-10

Contributions by Responsible Agencies.....	3-15
The Impact of Growth.....	3-19
4. AQMP CONTROL STRATEGY	
Introduction.....	4-1
Overall Attainment Strategy	4-1
Designing the Overall Strategy	4-2
Draft 2003 AQMP Control Measures.....	4-3
District's Stationary and Mobile Source Control Measures.....	4-4
Stationary Source Control Methods and Associated Emission Reductions	4-8
Coatings and Solvents	4-10
Petroleum Operations and Fugitive VOC Emissions.....	4-10
Combustion Sources	4-11
Fugitive Dust Sources	4-12
Miscellaneous Sources	4-13
Compliance Flexibility Programs.....	4-16
District's Mobile Source Control Measures.....	4-17
Transportation Control Measures	4-18
Transportation Control Measure Development.....	4-19
Transportation Control Methods Objectives	4-20
State and Federal Stationary and Mobile Source Control Measures	4-23
State Strategy	4-23
Set Technology-Forcing New Engine Standards	4-24
Reduce Emissions from the In-Use Fleet	4-24
Require Clean Fuels, Support Alternative Fuels and Reduce Petroleum Dependency	4-25
Work with U.S. EPA to Reduce Emissions from Federal and State Sources	4-26
Pursue Long-Term Advanced Technologies Measures	4-26
Summary.....	4-27
District, State, and Federal Long-Term Control Strategy.....	4-30
District's Portion of Long-Term Strategy	4-32
CARB's Portion of Long-Term Strategy	4-32
Federal Responsibility Under Long-Term Strategy	4-35
Emissions Contribution	4-36
Federal Actions to Meet Emission Reduction Targets	4-36
Advanced Technologies.....	4-39
Fuel Cells/Advanced Battery Technologies	4-39
Electric & Hybrid-Electric Heavy-Duty Vehicles.....	4-40
Marine Vessels and Portside Equipment.....	4-42
Advanced Engine and Aftertreatment Technologies	4-43

Renewable Power Generation Technologies.....	4-44
Advanced Low-VOC Technologies	4-44
Innovative Control Approaches.....	4-46
Market Incentive Programs	4-46
Reactivity-Based Controls.....	4-47
Localized Controls.....	4-47
District's SIP Emission Commitment	4-48
SIP Emission Reduction Tracking	4-48
Reductions from Adopted Rules	4-48
Reductions from District's Stationary Control Measures	4-49
Overall Emission Reductions.....	4-52

5. FUTURE AIR QUALITY

Introduction.....	5-1
Modeling Approach	5-2
PM ₁₀	5-2
AQMP Modeling Approach	5-3
Ozone	5-4
Carbon Monoxide	5-7
Visibility	5-8
Future Air Quality	5-8
PM ₁₀	5-8
Ozone	5-9
Control Strategy Impacts	5-12
Carbon Monoxide	5-16
Visibility	5-18
Summary and Conclusions	5-18
Basin Emissions Carrying Capacity (Emissions Budget).....	5-20
Projected Emission Trends Through 2010	5-21

6. CLEAN AIR ACT REQUIREMENTS

Introduction.....	6-1
Federal Clean Air Act Requirements.....	6-1
PM ₁₀ Planning Requirements.....	6-1
Current PM10 Requirements	6-2
Ozone Planning Requirements.....	6-7
Post-1996 VOC rate-of-progress requirements	6-7
Ozone Attainment Demonstration	6-9
Contingency Measures	6-10
Average Vehicle Occupancy Requirements (AVO)	6-10
Carbon Monoxide Attainment Demonstration	6-11

Nitrogen Dioxide Maintenance Plan	6-11
California Clean Air Act Requirements.....	6-12
Plan Effectiveness.....	6-13
Emission Reductions.....	6-14
Population Exposure	6-15
Ozone.....	6-16
Carbon Monoxide.....	6-18
Cost Effectiveness Ranking	6-18
7. IMPLEMENTATION	
Introduction.....	7-1
Responsible Agencies	7-1
Control Measures	7-3
Control Measure Ranking.....	7-3
Federal Agencies.....	7-3
CARB.....	7-3
District.....	7-11
Transportation Control Measures	7-11
Local Governments and SCAG.....	7-11
Congestion Management Program (CMP) Linkage to the AQMP	7-12
Southern California Economic Partnership (The Partnership).....	7-12
Technology Advancement	7-14
SCAQMD Clean Fuels Program - Technology Advancement Plan	7-14
Alternative Fuels - Incentives Program.....	7-18
Alternative Fuels - On-Road	7-19
Alternative Fuels - Infrastructure	7-19
Fuel Cell Technologies.....	7-20
Electric and Hybrid Electric Technologies	7-20
Alternative Fuels - Off-Road Applications	7-20
Stationary Sources	7-20
Implementation Support Activities	7-21
District Assistance and Outreach Programs.....	7-21
Business Assistance	7-21
SCAG Assistance	7-22
Monitoring	7-23
8. FUTURE AIR QUALITY - DESERT NONATTAINMENT AREAS	
Introduction.....	8-1
Statement of Problem.....	8-1
Regulatory Requirements	8-2
Population Growth	8-2

Pollutant Transport	8-4
Trends in Ozone Air Quality	8-6
Attainment Demonstration.....	8-7
Post-1996 VOC Rate-of-Progress Requirements	8-8
Summary of Coachella Valley PM ₁₀ Plan	8-10
Introduction.....	8-10
Background	8-10
2002 CVSIP	8-11
2003 CVSIP	8-12
Conclusions.....	8-12
9. CONTINGENCY MEASURES	
Introduction.....	9-1
Contingency Measures.....	9-1
10. LOOKING BEYOND CURRENT REQUIREMENTS	
Introduction.....	10-1
Uncertainties Associated with the Technical Analysis.....	10-1
A First Look at the Year 2020 Ozone Air Quality	10-4
New Federal Air Quality Standards for Ozone and Fine Particulates	10-4
What are the Health Concerns?	10-5
Ozone.....	10-5
Particulate Matter	10-5
What is the New Federal Ozone Standard?	10-6
What are the New Federal PM Standard?.....	10-6
Implementation of the New Federal Standards	10-7
Assessment of the New Federal Standards	10-7
Ozone.....	10-7
Particulate Matter	10-8
New State PM Air Quality Standards	10-9
GLOSSARY	G-1

APPENDIX I	HEALTH EFFECTS
APPENDIX II	CURRENT AIR QUALITY
APPENDIX III	BASE AND FUTURE YEAR EMISSION INVENTORIES
APPENDIX IV-A	DISTRICT'S STATIONARY AND MOBILE SOURCE CONTROL MEASURES
APPENDIX IV-B	STATE AND FEDERAL ELEMENT OF THE SOUTH COAST STATE IMPLEMENTATION PLAN
APPENDIX IV-C	TRANSPORTATION CONTROL MEASURES
APPENDIX V	MODELING AND ATTAINMENT DEMONSTRATIONS
